Signatur

SIGNATUR IS CHANGING ITS APPLICATION SYSTEM!
Therefore, our online application form is not currently available.

In order to help applicants wishing to prepare their application during the summer period, we have listed the questions that will be included in this year's application form in this document. We do not plan any major changes to the form before the launch, so once you register for the new application system, you will find the same content and structure, with the exception of minor adjustments and added clarifications. An asterisk* indicates mandatory questions. For questions that require longer answers, there is a maximum number of characters.

Please note that Signatur does not accept applications by post or e-mail. If you prepare your application in Word, you must register for an account in our online application system and paste your answers into the digital form to submit your proposal.

The deadline for the 2023 call for applications is Friday, September 15 and we expect to open the new system by Friday, September 1 at the latest.
